Afroz Mohammad

I'm Fullstack Developer|

About

Welcome to my portfolio! I'm passionate about creating meaningful and impactful digital experiences through design and development. With a blend of creativity and technical expertise, I specialize in crafting visually stunning and user-friendly solutions that leave a lasting impression.

My journey in the world of design and development began with a fascination for technology and a drive to bring ideas to life. Over the years, I've had the privilege of working on a diverse range of projects, from website design and branding to mobile app development and interactive experiences.

I believe in the power of collaboration and strive to work closely with clients and stakeholders to understand their goals and objectives. Whether it's brainstorming innovative concepts, refining user interfaces, or optimizing code for performance, I'm dedicated to delivering results that exceed expectations.

In addition to my professional work, I'm committed to continuous learning and growth. I stay updated with the latest design trends, development techniques, and industry best practices to ensure that my skills are always ahead of the curve.

Through my portfolio, I aim to showcase my passion, creativity, and expertise in design and development. I invite you to explore my projects, get inspired, and imagine the possibilities of what we can create together. Let's collaborate and turn your vision into reality!

University of Cincinnati

BACHELOR OF COMPUTER SCIENCE AND ENGINEERING

2017 - 2021

RGUKT, Basar, India

Professional Experience

SOFTWARE APPLICATION DEVELOPER

2023 - Present

Cincinnati, OH

- Actively involved in the resolution of critical bugs, showcasing a proactive and problem-solving approach to application maintenance.

- Developed modular and reusable components to build a dynamic and responsive user interface and utilized Node.js for server-side development, implementing RESTful APIs to handle client-server communication.

- Collaborated closely with team members in bi-weekly sprints, contributing to the delivery of enhancements and bug fixes on schedule.

- Utilized Git for version control, actively participating in the team's Git workflow and maintaining version history for project documentation

SYSTEMS ENGINEER

2017 - 2018

Stepping Stone Advertising, New York, NY

- Assessed project requirements using agile and scrum principles that helped prioritize the development activities.

- Created custom responsive and dynamic web pages to replace a legacy line of business web application using React JS.

- Contributed to the development of new features, demonstrating a hands-on approach to feature implementation and adhering to project timelines

- Proactively sought guidance from senior team members, accelerating the learning process and contributing to a positive team dynamic
